

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

VOLUME XXXIV.

WOODS HOLE, MASS.

JANUARY TO JUNE, 1918

PRESS OF
THE NEW ERA PRINTING COMPANY
LANCASTER, PA.

CONTENTS OF VOLUME XXXIV.

NO. 1. JANUARY, 1918.

SUMNER, F. B., AND COLLINS, H. H. <i>Autotomy of the Tail in Rodents</i>	I
HARRIS, J. ARTHUR. <i>The Interrelationship of the Number of Stamens and Pistils in the Flowers of Ficaria</i>	7
JENSEN, ALBERT C. <i>Some Observations on Artemia gracilis, the Brine Shrimp of Great Salt Lake</i>	18
LOEB, LEO. <i>The Relations between the Interstitial Gland of the Testicle, Seminiferous Tubules and the Secondary Sexual Characters</i>	33
CHILD, C. M. <i>Physiological Senescence in Hydromedusæ</i>	49

NO. 2. FEBRUARY, 1918.

LILLIE, RALPH S. <i>Heredity from the Physico-Chemical Point of View</i>	65
CRAIG, WALLACE. <i>Appetites and Aversions as Constituents of Instincts</i>	91
KANDA, SAKYO. <i>Further Studies on the Geotropism of Paramecium caudatum</i>	108
LYON, E. P. <i>Note on the Geotropism of Paramecium</i>	120
CHAMBERS, ROBERT. <i>The Microvivisection Method</i>	121

NO. 3. MARCH, 1918.

TURNER, C. H. <i>The Locomotions of Surface-feeding Caterpillars are not Tropisms</i>	137
MORSE, WITHROW. <i>Factors Involved in the Atrophy of the Organs of the Larval Frog</i>	149
COHN, EDWIN, J. <i>Studies in the Physiology of Spermatozoa</i>	167

NO. 4. APRIL, 1918.

WERBER, E. I. <i>Critical Notes on the Present Status of the Lens-Problem</i>	219
WHITING, P. W. <i>Sex-Determination and Biology of a Parasitic Wasp, Hadrobarcon brevicornis (Wesmael)</i>	250
SCHULTZ, ADOLF H. <i>Studies in the Sex-Ratio in Man</i>	257

NO. 5. MAY, 1918.

FASTEN, NATHAN. <i>Spermatogenesis of the Pacific Coast Edible Crab, Cancer magister Dana</i>	277
SEIFRIZ, WILLIAM. <i>Observations on the Structure of Protoplasm by Aid of Microdissection</i>	307
WHITNEY, D. D. <i>Further Studies on the Production of Functional and Rudimentary Spermatozoa in Rotifers</i>	325
SHULL, A. FRANKLIN. <i>Effect of Environment upon Inherited Character of Hydatina senta</i>	335
WARREN, DON C. <i>The Effect of Selection upon the Sex Ratio in Drosophila ampelophila</i>	351
GOLDFARB, A. J. <i>Effects of Ageing upon Germ Cells and upon Early Development. Part II</i>	372

NO. 6. JUNE, 1918.

SHULL, A. FRANKLIN. <i>Effect of Environment upon Inherited Characters of Hydatina Senta</i>	335
WARREN, D. C. <i>The Effect of Selection upon the Sex-Ratio in Drosophila ampelophila</i>	351
GOLDFARB, A. J. <i>Effects of Aging upon Germ-Cells and upon Early Development. Part II., Changes in Moderately Aged Eggs and Sperm</i>	372
